| TC_0008            | Authentication - Login & Sign Up  | Verify Sign Up with existing username - case insensitive  | 1. Navigate to Sign Up<br>2. Enter existing username but with case insensitive + password<br>3. Click Sign Up   | Username: TeStInGdWn<br>Password: d1vn123  | Error alert appears: "This user already exists"  | High       | 13/09/2025 |            | User is successfully registered and can login with the credentials   | Failed           |         | 8            |
| TC_0009            | Authentication - Login & Sign Up  | Verify Sign Up with existing username - white space   | 1. Navigate to Sign Up<br>2. Enter existing username but with white space + password<br>3. Click Sign Up  | Username: testing dwn<br>Password: d1vn123   | Error alert appears: "This user already exists"  | High       | 13/09/2025 |            | User is successfully registered and can login with the credentials   | Failed           |         | 9            |
| TC_0010            | Authentication - Login & Sign Up  | Verify Sign Up with username that contains special characters or symbols  | 1. Navigate to Sign Up<br>2. Enter username that contains special characters + password<br>3. Click Sign Up   | Username: TeStInGdWn!@#%\$%^&*()~<br>Password: TeStInGdWn!@#%\$%^&*()~   | Error alert appears: "Name should not contain special character like !, @, #, \$, etc"   | High       | 13/09/2025 |            | User is successfully registered and can login with the credentials   | Failed           |         | 10           |
| TC_0011            | Authentication - Login & Sign Up  | Verify Sign Up with username or password length validation  | 1. Navigate to Sign Up<br>2. Try<br>2.1. Enter username and password that is very short<br>2.2. Enter username and password that is very long<br>3. Click Sign Up                           | For Step 2.1:<br>Username: d1t<br>Password: d1t<br>For Step 2.2:<br>Username: Testt1m1000Characters (x40)<br>Password: Testt1m1000Characters (x40) | Error alert appears: "Username or Password should have more than 7 characters" or "Username or Password should not be more than 50 characters" | High       | 14/09/2025 |            | User is successfully registered and can login with the credentials   | Failed           |         | 11           |
| TC_0012            | Authentication - Login & Sign Up  | Verify login functionality.   | 1. Login<br>2. Click logout button  | Username: testingdwn<br>Password: d1vn123  | User is logged out. Welcome message disappears. Redirect to home.  | High       | 13/09/2025 | 13/09/2025 | User is logged out. Welcome message disappears. Redirect to home.  | Pass             |         | 12           |
| TC_0013            | Authentication - Login & Sign Up  | Verify login persistence after page refresh.  | 1. Login<br>2. Refresh Browser  | Username: testingdwn<br>Password: d1vn123  | User remains logged in; homepage still accessible  | High       | 13/09/2025 | 13/09/2025 | User remains logged in; homepage still accessible  | Pass             |         | 13           |
| TC_0014            | Homepage & Product Catalog  | Verify that homepage loads all product categories (Phones, Laptops, Monitors).                                  | 1. Navigate to homepage after login   |  | Categories Phones, Laptops, Monitors are displayed   | High       | 13/09/2025 | 13/09/2025 | Categories Phones, Laptops, Monitors are displayed   | Pass             |         | 14           |
| TC_0015            | Homepage & Product Catalog  | Verify navigation between categories displays the correct products.   | 1. Click Phones category<br>2. Click Laptops category<br>3. Click Monitors category   |  | Each category shows only relevant products   | High       | 13/09/2025 | 13/09/2025 | Each category shows only relevant products   | Pass             |         | 15           |
| TC_0016            | Homepage & Product Catalog  | Verify that product images and details (name, price) are displayed correctly.                                   | 1. Navigate to a category page  |  | Each product shows image, name, and price.   | High       | 13/09/2025 | 13/09/2025 | Each product shows image, name, and price.   | Pass             |         | 16           |
| TC_0017            | Homepage & Product Catalog  | Verify pagination works correctly (next/previous buttons).  | 1. Go to category with multiple product pages<br>2. Click Next<br>3. Click Previous   |  | Next shows following products; Previous returns to earlier ones  | High       | 13/09/2025 | 13/09/2025 | When on the Category page, pagination works correctly. But if the user selects a specific category (e.g., Phones) and then clicks Previous/Next, the system shows products from a different category instead of staying within the selected one.   | Failed           |         | 17           |
| TC_0018            | Homepage & Product Catalog  | Verify that clicking a product opens the product details page.  | 1. Select a product from category list  | Samsung Galaxy S6  | Product details page opens correctly.  | High       | 13/09/2025 | 13/09/2025 | Product details page opens correctly.  | Pass             |         | 18           |
| TC_0019            | Homepage & Product Catalog  | Verify product details page shows correct name, description, price, and image                                   | 1. Open a product details page  | Samsung Galaxy S6  | Correct name, description, price, and image displayed  | High       | 14/09/2025 | 14/09/2025 | Correct name, description, price, and image displayed  | Pass             |         | 19           |
| TC_0020            | Cart Functionality  | Verify that a user can add a product to the cart from product details.  | 1. Open product details<br>2. Click Add to Cart   | Samsung Galaxy S6  | Product added successfully, confirmation shown.  | High       | 14/09/2025 | 14/09/2025 | Product added successfully, confirmation shown.  | Pass             |         | 20           |
| TC_0021            | Cart Functionality  | Verify multiple products can be added to the cart.  | 1. Add product A<br>2. Add product B  | iPhone 6, MacBook Pro  | Both appear in cart with correct details.  | High       | 14/09/2025 | 14/09/2025 | Both appear in cart with correct details.  | Pass             |         | 21           |
| TC_0022            | Cart Functionality  | Verify that the cart displays correct product name, price, and quantity.  | 1. Add products<br>2. Open cart   | 2 items (Phone + Laptop)   | Cart shows correct names, prices, quantities.  | High       | 14/09/2025 | 14/09/2025 | Cart shows correct names, prices, quantities.  | Pass             |         | 22           |
| TC_0023            | Cart Functionality  | Verify deleting a product from the cart removes it successfully.  | 1. Add product to cart<br>2. Delete product   | iPhone 6   | After clicking delete button, page refreshes, and product removed successfully   | High       | 14/09/2025 | 14/09/2025 | After clicking delete button, page refreshes, and product removed successfully   | Pass             |         | 23           |
| TC_0024            | Cart Functionality  | Verify that total price in the cart is updated correctly after adding/removing items.                           | 1. Add multiple products<br>2. Remove one   | Phone + Laptop   | Total price adjusts accordingly  | High       | 14/09/2025 | 14/09/2025 | Total price adjusts accordingly  | Pass             |         | 24           |
| TC_0025            | Cart Functionality  | Verify that cart is cleared after placing an order.   | 1. Add products<br>2. Place order   | 2 items  | Cart becomes empty after order   | High       | 14/09/2025 | 14/09/2025 | Cart becomes empty after order   | Pass             |         | 25           |
| TC_0026            | Cart Functionality  | Verify cart persistence after refreshing the page (if logged in) or user logs then login again                  | 1. Add products to cart<br>2. Refresh page  | Logged in user   | Cart still contains added products even after refresh or user session ends then login again  | High       | 14/09/2025 | 14/09/2025 | Cart still contains added products even after refresh or user session ends then login again  | Pass             |         | 26           |
| TC_0027            | Checkout & Order Placement  | Verify that clicking "Place Order" opens the order form.  | 1. Open cart<br>2. Click Place Order  |  | Order form modal opens   | High       | 14/09/2025 | 14/09/2025 | Order form modal opens   | Pass             |         | 27           |
| TC_0028            | Checkout & Order Placement  | Verify that all fields (Name, Country, City, Credit Card, Month, Year) accept valid input.                      | 1. Enter data in Name, Country, City, Credit Card, Month, Year  | D1vn, USA, NY, 1234567, 12, 2025   | Fields accept valid data   | High       | 14/09/2025 | 14/09/2025 | All fields (Name, Country, City, Credit Card, Month, Year) can be filled with any free text. There is no validation on input type or length (e.g., Credit Card accepts letters, Month/Year accept text, and fields allow unlimited characters)     | Failed           |         | 28           |
| TC_0029            | Checkout & Order Placement  | Verify error handling for empty mandatory fields.   | 1. Open order form<br>2. Leave mandatory fields empty<br>3. Click Purchase  |  | Error shown for missing fields   | High       | 14/09/2025 | 14/09/2025 | Error shown for missing fields   | Pass             |         | 29           |
| TC_0030            | Checkout & Order Placement  | Verify order placement with valid details shows confirmation dialog.  | 1. Fill form with valid details<br>2. Place order   | Valid customer info  | Confirmation dialog displayed  | High       | 14/09/2025 | 14/09/2025 | Confirmation dialog displayed  | Pass             |         | 30           |
| TC_0031            | Checkout & Order Placement  | Verify order confirmation contains correct purchase amount and customer details.                                | 1. Place an order   | D1vn, \$500  | Confirmation contains correct purchase amount & details  | High       | 14/09/2025 | 14/09/2025 | Confirmation contains correct purchase amount & details  | Pass             |         | 31           |
| TC_0032            | UI & Usability Testing  | Verify website layout works correctly on different browsers (Chrome, Firefox, Edge).                            | 1. Open site in Chrome, Firefox, Edge   |  | Layout consistent across browsers  | High       | 14/09/2025 | 14/09/2025 | Layout consistent across browsers  | Pass             |         | 32           |
| TC_0033            | UI & Usability Testing  | Verify website is responsive on different screen sizes (desktop, tablet, mobile).                               | 1. Resize window or test on desktop, tablet, mobile   |  | Layout adapts correctly  | High       | 14/09/2025 | 14/09/2025 | Layout adapts correctly  | Pass             |         | 33           |
| TC_0034            | UI & Usability Testing  | Verify navigation menu links (Home, Contact, About Us, Cart, Login, Sign Up) work correctly.                    | 1. Click Home, Contact, About Us, Cart, Login, Sign Up  |  | Each link navigates correctly  | High       | 14/09/2025 | 14/09/2025 | Each link navigates correctly  | Pass             |         | 34           |
| TC_0035            | UI & Usability Testing  | Verify product images are not broken.   | 1. Browse categories  |  | All product images load properly   | High       | 14/09/2025 | 14/09/2025 | All product images load properly   | Pass             |         | 35           |
| TC_0036            | UI & Usability Testing  | Verify pop-up modals (Login, Sign Up, Contact, About Us, Place Order) are displayed properly and can be closed. | 1. Open Login, Sign Up, Contact, About Us, Place Order  |  | Modals display correctly and can be closed   | High       | 14/09/2025 | 14/09/2025 | All modals display correctly and can be closed except for "About Us" modals, the modals corrupted  | Failed           |         | 36           |
| TC_0037            | Performance & Negative Testing  | Verify system behavior when adding a large number of items to the cart.   | 1. Add many items (e.g., 50+)   | 50 phones  | System handles without crashing  | Small      | 14/09/2025 | 14/09/2025 | The system does not crash when adding many items, but ordering in bulk is inconvenient because:<br>1. User must add products one by one (no quantity selection).<br>2. Same products appear as separate rows in the cart instead of being grouped. | Failed           |         | 37           |
| TC_0038            | Security Testing (Basic)  | Verify user cannot access the cart without logging in.  | 1. Log out<br>2. Try open cart  |  | Redirect to login  | High       | 14/09/2025 | 14/09/2025 | Cart able to accessed without user need to log in  | Failed           |         | 38           |
| TC_0039            | Security Testing (Basic)  | Verify sensitive data (like passwords) is not visible in plain text.  | 1. Inspect login form   | Password: 123456   | Password masked (*****)  | High       | 14/09/2025 | 14/09/2025 | Password masked (*****)  | Pass             |         | 39           |
| TC_0040            | Security Testing (Basic)  | Verify that session ends after longer user cannot go back using browser back button.                            | 1. Log in<br>2. Log out<br>3. Use browser Back  |  | User cannot access previous pages  | High       | 14/09/2025 | 14/09/2025 | User able to go back to previous pages and restore User Session  | Failed           |         | 40           |
| TC_0041            | Security Testing (Basic)  | Verify login attempts are handled properly (no brute-force login allowed).                                      | 1. Attempt multiple wrong passwords   | Same username, wrong password  | System blocks after threshold (e.g., 5 attempts)   | High       | 14/09/2025 | 14/09/2025 | User able to insert as many login attempts without system blocking   | Failed           |         | 41           |
